

Lamparasas ISD

### **Lamparasas ISD Soccer/Softball/Baseball COVID Procedure Plan**

The dates for the Lamparasas ISD High School soccer, softball, and baseball games are available on our district's website. While the dates and times are subject to change, this procedure plan will outline our plans to address COVID related concerns.

Currently, the percentage of fans allowed by the UIL is at 50% capacity. If this changes, we will change our ticket sales to accommodate that number. Currently, the ticket sales shall be set at 200 for soccer, 100 for softball and 100 for baseball. The following general procedures will be implemented to further protect those in attendance:

- Seating: We will block off alternating rows in the bleachers.
- Spectators shall be allowed to bring their own lawn chairs for baseball/softball.
- Staff will disinfect seats and frequently touched areas before and after each use.
- Concessions: All concession stand volunteers will be required to wear gloves and a mask. All food will be individually wrapped and/or in individual containers. Condiments and utensils will be single use and individually wrapped. All volunteers will follow proper food-handling protocols and disinfect any items that encounter customers (tabletops, etc.)
- All ticket sales will be completed via internet. <https://www.lisdtx.org/domain/1104>
- All ticket purchasers will undergo COVID-19 screening.
- All visitors ten years and older must always wear a mask or a face covering within the stadium unless exempt. Those requesting exception to the mask or face covering must do so at least 24 hours before the event.
- Placement of readily visible signage at the entrance and concession area to remind everyone of best hygiene practices.
- Sanitizing station at entrance and concession area.
- Administrative staff will be dedicated to ensuring that social distancing and sanitizing are being successfully implemented and followed.
