Lampasas Independent School District Lampasas High School

2021-2022 Campus Improvement Plan

Mission Statement

The mission of the Lampasas Independent School District is to develop and encourage life-long learners and to share in the responsibility of educating the total child. The District strives to prepare the students physically, mentally, socially and morally toward the full realization of their highest capabilities.

Table of Contents

Comprehensive Needs Assessment	4
Demographics	4
Student Achievement	5
School Culture and Climate	7
Staff Quality, Recruitment, and Retention	10
Curriculum, Instruction, and Assessment	11
Parent and Community Engagement	14
School Context and Organization	17
Technology	19
Priority Problem Statements	22
Comprehensive Needs Assessment Data Documentation	23
Goals	25
Goal 1: The Students in the Lampasas ISD will demonstrate exemplary performance in mathematics, science, social studies, and the reading and writing of the English	
language.	26
Goal 2: Lampasas ISD will offer and provide a challenging and rigorous curriculum so students meet their full educational potential.	29
Goal 3: Lampasas ISD will maintain a safe and disciplined environment conducive to student learning.	36
Goal 4: Lampasas ISD will recruit, develop and retain qualified and highly effective personnel.	41
Goal 5: Lampasas ISD will encourage communication so parents and community members are active partners in the education and activities of all students.	43
Goal 6: Lampasas ISD will implement and use technology to increase the effectiveness of the digital learner, instructional management, staff development and	
administration.	47
Goal 7: Lampasas ISD will plan and use resources available to provide and maintain educational facilities.	49
Goal 8: Lampasas ISD will work to have 75% of the students when they graduate to be College Ready, Career Ready, or Military Ready.	50
Goal 9: ESSER II and ESSER III funds allocated throughout the District.	51
State Compensatory	52
Personnel for Lampasas High School	53
Campus Funding Summary	53

Comprehensive Needs Assessment

Revised/Approved: November 1, 2021

Demographics

Demographics Summary

Student Information	Count	Percent	District	State
2020				
Students by Grade				
Grade 9	265	26.6%	7.8%	8.20%
Grade 10	245	24.6%	7.2%	7.4%
Grade 11	259	26.0%	7.6%	6.9%
Grade 12	228	22.9%	6.7%	6.4%
Ethnic Distribution				
African American	19	1.9%	2.7%	12.60%
Hispanic	245	24.6%	26.2%	52.8%
White	664	66.6%	63.2%	27.0%
American Indian	8	0.8%	0.6%	0.4%
Asian	4	0.4%	0.9%	4.6%
Pacific Islander	12	1.2%	0.8%	0.2%
Two or More Races	45	4.5%	5.6%	2.5%
Section 504 Students	149	14.9%	11.6%	6.9%
Economically Disadvantaged	438	43.9%	52.0%	60.3%
Non-Educationally Disadvantaged	559	56.1%	48.0%	39.7%
English Language Learners (ELL)	18	1.8%	3.7%	20.3%
Students w/Disciplinary Placements (2018-2019)	35	3.3%	1.6%	1.5%
At-Risk	443	44.4%	49.4%	50.6%
Mobility (2018-2019)	127	11.9%	14.0%	15.3%

Demographics Strengths

- 1. Defines our special needs students, so we can aid them in being successful and graduating from high school.
- 2. Data gives us insight to student needs in each subject area so we can improve instruction and learning opportunities for all students to be successful in the courses.
- 3. Understanding what classes our students are taking will help with planning course offerings for the following year and staffing of those courses.

Problem Statements Identifying Demographics Needs

Problem Statement 1: As with the trend in the rest of the state, the economically disadvantaged population is increasing. **Root Cause:** Could be that more lower middle class families are moving into our area.

Student Achievement

Student Achievement Summary

Summary of EOC Report as of 7/10/21

Algebra 1-81% approached standard; 45% met standard; 19% mastered standard (State Average 85%)

Biology- 85% approached standard; 59% met standard; 25% mastered standard (State Average 88%)

US History- 92% approached standard; 82% met standard; 60% mastered standard (State Average 92%)

English 1-68% approached standard; 57% met standard; 10% mastered standard (State Average 68%)

English 2-74% approached standard; 60% met standard; 12% mastered standard (State Average 68%)

	Reading	Math
Class of 2019 (SAT)	558	518
State Average	517	510
	Composite	
Class of 2019 (ACT)	22.0	
State Average	20.6	

Assessment of data:

• The campus performed above state in all subjects except algebra and biology where we were slightly below the state.

Sub-populations of Econ-Dis and SPED are performing well but still show a gap with the remainder

- of the student population.
- Students mastering standard in English need to show improvement to continue to attain distinction.
- The national testing data indicates our students are performing well. However, an increase in participation will help as long as those students are seeking a four year post-secondary institution.

Student Achievement Strengths

- 1. Gains in student achievement.
- 2. STAAR test scores above the State average in all but two areas.
- 3. Increase in the number of students participating in SAT and ACT testing
- 4. We are testing all students during the school day that want to take the ACT. Seniors in the Fall and Juniors in the Spring.
- 5. Distinction awards on the State accountability ratings

Problem Statements Identifying Student Achievement Needs

Problem Statement 1: No distinction was earned in science or math. **Root Cause:** Students not fully understanding the SAT/ACT and AP test leading to low participation counts in those areas.

School Culture and Climate

School Culture and Climate Summary

Faculty:

How do you describe the school climate?

According to school surveys (Bright Light & self-developed), LHS has a positive overall climate. The faculty and staff are friendly, encouraging, supportive, and student centered.

How would you describe attitudes, respect, relationships, belonging, support, etc?

Student involvement in an extracurricular activity or group out side of the normal classroom fosters better attitudes, stronger relationships, and a better sense of belonging with mutual support. Students not involved in activities or groups, probably miss out on this very important supportive aspect of the high school experience. Most school personnel have positive attitudes, which in turn leads to better respect and relationships between faculty members. Many have the feeling of belonging and support from department members and the administration.

To what degree do you as a staff member feel physically safe?

Staff members seem to feel extremely safe. They trust the principals and other staff members to step in if any needs arise. They know that safety measures have been put in place to handle emergencies that might arise during the school day.

What are your perceptions of facilities and the physical environments? What is the impact of the facilities on culture and climate?

The facilities at LHS add to the overall culture and climate of the school in a positive way. The school always looks nice and clean, and most who attend here want to keep it that way.

How do teachers have a voice in decision making and school policies?

Our staff does have campus meetings, department meetings, as well as emails from our principal asking for staff input on certain issues. Faculty and staff are asked for our input on numerous occasions throughout the school year. We have a voice through the district site based committee, campus site based committee, and the ability to talk with school administration on a personal level when needed.

What role do teachers have in deciding what assessments will be used to evaluate individual students or the program as a whole?

Teachers many times are part of a committee who develop bench-mark tests to assess the students learning. Teachers are asked for input by the RTI group when reviewing a student's need for special services. Teachers attend student ARD meetings for will fill out a report on the student's performance in the class.

In the classroom teachers have the freedom to use what ever means they want for assessing the student's progress in their class. We also have starte 1/2 Day Departmental Meetings, so we can develop and access our common assessments. These 1/2 Departmental Meetings allow the core teachers to collaborate and plan.

Student response:

How do you describe the school climate?

Orderly it seems very business like.

How would you describe attitudes, respect, relationships, belonging, support etc?

Student body needs to be more enthusiastic and more involved in the opportunities of the school. Most students involved in school activities have better attitudes and are more respectful of teacher and other students. Many students who are not a part of one of the activities, feel like they don't belong or are distant from others.

To what degree do you as a student feel physically safe?

Most students feel very safe at this school with the campus locked down and procedures in place to protect their safety.

What are your perceptions of facilities and the physical environments? What is the impact of the facilities on the culture and climate of the school?

The school is kept very clean and neat at all times. The hall walls are pretty bare and could use some decor to make them look nicer when class projects are not hanging for display.

Do school committees and decision making bodies make it easy for students to be heard and, in turn, for all groups involved to be a part of the solutions to identified problems?

Our student organizations are involved and allow students to be involved and have a say in our school. The administration is open to new ideas from our student body.

School Culture and Climate Strengths

1. Excellent facilities and technology

- 2. Community involvement
- 3. Diversity of activities
- 4. Safe learning environment
- 5. Student Involvement

Problem Statements Identifying School Culture and Climate Needs

Problem Statement 1: We have more younger students who seem disconnected. Root Cause: No involvement in student activities

Staff Quality, Recruitment, and Retention

Staff Quality, Recruitment, and Retention Summary

Lampasas High School Staff has experienced changes since 2018-2019. The campus has added new programs in the CTE department which have seen the greatest area of change in personnel.

The district has established an excellent support system for all teachers. Mentor teachers are working with new staff members as well as the campus instructional specialist and administration.

We have allowed the teachers to attend workshops that help them in learning new ideas.

The campus administration will provide needed feedback to teachers as all walkthroughs are conducted. Teachers are encouraged to continue their education with training and professional development.

Staff Quality, Recruitment, and Retention Strengths

- 1. Excellent classroom technology
- 2. Outstanding staff training opportunities
- 3. Successful programs in many areas helps to retain, as well as recruit, new staff
- 4. LISD has a comprehensive mentoring program to provide new teachers needed support

Problem Statements Identifying Staff Quality, Recruitment, and Retention Needs

Problem Statement 1: LHS has experienced turnover in staff that has had advanced training. **Root Cause:** Teachers that want to take on advanced training are the ones who continue to seek and take on leadership rolls in other districts.

Curriculum, Instruction, and Assessment

Curriculum, Instruction, and Assessment Summary

What evidence exists to determine that the curriculum is clearly linked to the TEKS and other standards for student learning?

The curriculum in TRS was developed to meet all the requirements of the TEKS and covers the material that needs to be covered in the grade level under state guidelines.

How is data used to inform curriculum, instruction, and assessment decisions?

When the results of the state testing returns to the school we review the test and see what areas the students did poorly in to make sure we are covering that material properly and if needed, look at other ways of presenting the information for student success in learning the material. We also give the core departments collaboration days that will allow them to develop, administer, and assess the common assessments. We find our weaknesses and strengths and apply that to our needs assessment plan and strategies.

What does the data reflect about how curriculum, instruction, and assessment are aligned? How are they focused on supporting and challenging all students?

The majority of students are successful on the state testing on the material students are learning and responsible to understand. Many students need more of a challenge so we offer them Honors classes to give them the opportunity to be more informed and working at a higher level of rigor. Some students are at the level of being able to advance to the AP course and OnRamp courses and be successful at the college level. For the student who struggles, we have tutoring and mentoring programs to help them meet the requirements set by the state.

How are curriculum, instruction, and assessment aligned with 21st Century Learning Skills?

The curriculum and assessments we are using presently, are directly tied into the state TEKS. The state standards are aligned with the 21st Century Learning Skills. The development of an improved CTE program is also being fostered. Our CTE students will follow a coherent course sequence.

What evidence is there that there is a process for monitoring, evaluating and renewing the curriculum to meet the needs of all learners?

We are continuously reviewing our student success and evaluating our teaching and assessments to make sure our students are being successful on state mandated testing. We review and look into current information sent out from TEA to make sure we are in compliance with state guidelines for student performance requirements.

How are instructional strategies and activities aligned with student learning needs and expected outcomes for achievement? How consistent is this across the district/school? What is the impact on specific student groups?

We have setup classes for special needs students to help them become successful in areas where they are weak in a subject matter. In these classes they are continuously working on the required TEKS but at a slower and easier to follow pace to help them build their skill level in that area. Most of the students are

very successful in the general education classes and show the knowledge and skills to be successful on state assessments. By state assessment time the majority of our students are ready and successful at meeting the state challenge and passing the test.

What evidence supports the implementation of high impact/high yield additional interventions for students who need assistance beyond primary classroom instruction? Which students need this type of instruction? What has the effect been over time?

The majority of students we have involved in the intervention classes are very successful with learning the materials and skills and perform at or above standard on the state assessments. As they progress through high school they are better able to meet the standards without having the intervention in the later years of high school. This program also helps us to know which students learn in different manners so we can address their learning style in the classroom to help improve their success.

How does instructional design and delivery maximize student engagement, a positive learning climate, higher order thinking skills, problem solving, critical thinking, etc.?

If the classroom lesson is designed with the student involved, this will keep their interest in the material and the more involved they are the more they will be inclined to ask questions and deepen their learning level. As teachers use the higher levels of Bloom's taxonomy it will rise the level on learning the students are achieving in the classroom and ability to solve the problems presented in the class. They are not just note takers but learners who are involved in the learning process with input. The lessons must also have a tie to their lives to give validity to the material they are require to learn this way they see how it will affect their lives in the present and the future.

Is there evidence that assessments are aligned with clearly specified and appropriate achievement expectations? How are they developed and linked to measure the effect of curriculum and instruction?

Each day in the classroom student expectations are listed as to what should be learning in the lesson for the day. Classroom liaisons are present to verbally share with all guests to the classroom. At the end of the class a short review to see if the students have successfully learned the expectations for the day will be taken to see if the material needs to be retaught. If there is not a positive show of understanding of the material, then we need to look at the lesson and make changes to the presentation to make sure it is useful to help the students learn the materials being presented for understanding.

How do we know assessments are designed, developed, and used in a fair and equitable manner that eliminates biases? How do students perceive these assessments?

The assessment are all based off of the TEKS and materials that will be tested by the state for the understanding of the material for the subject matter the students are studying. Many of the questions are ones that have been developed by the state for testing student's understanding of the material. The students see the assessments used by their teachers as stepping stones to the type of questions that they will be required to answer on the state assessment. The tests given during the school year can be used as study guides for the state testing with both higher and lower level questioning.

How does the scope of assessments provide a comprehensive and representative sampling of student performance that allows for confident conclusions

about achievement?

The assessment of student understanding is given to all students in the grade level. This is used to give the school a picture of the general student population ability to be successful with the knowledge of that particular area of the subject matter that is being tested. If the results are not what is required, then a review of the test or of how the material is being presented will be done to make sure the learning is taking place and the students can be successful.

Curriculum, Instruction, and Assessment Strengths

- 1. TRS curriculum
- 2. Common assessments for all students
- 3. Staff training on instructional strategies
- 4. LISD Professional development program offers choices for staff to tailor their training to individual needs

Problem Statements Identifying Curriculum, Instruction, and Assessment Needs

Problem Statement 1: We need to improve our coherent sequence of courses in CTE. **Root Cause:** Getting course selection from students in a timely manner to appropriately place them in classes and involving them sooner in Middle School

Parent and Community Engagement

Parent and Community Engagement Summary

Community and Parent Involvement

- Lampasas High School (LHS) has a Career and Technology Education (CTE) Advisory Board made up of CTE faculty, administrators, parents, student, and industry professionals that advises, assists, supports and advocates for CTE. Members share their expert knowledge of the career tasks and competency requirements for specific occupations.
- * LHS students participate in the Lampasas County Stock Show.
- LHS Health Science II students work with a variety of clinical sites to provide observation and handson experiences. Examples of clinic sites include 2 Veterinary Clinics, Dialysis Clinic, Family Medicine, Rollins Brook Hospital, 2 Dental Clinics, nursing facilities/homes, etc.
- LHS Career Preparation students work in a variety of settings throughout the community in areas such as agriculture, food service, retail shops, and service-related businesses.
- Parents of LHS students and community members volunteer to prepare for many banquets and fundraisers.
- LHS is an adopted school by the US Army at Fort Hood.
- Military recruiters are allowed to visit LHS to talk to students and answer questions that students may have about joining the military.
- * Badger Tracks, the LHS newspaper is produced in Adobe In Design and printed and distributed in coordination with our local newspaper and shared through Badger Track social media.
- * The LHS yearbook is produced via an on-line program in coordination with Josten's.
- The video, web, and digital arts classes at LHS have been invited by community members to produce videos, web pages, fliers and brochures for their organizations.

The art department, NHS, Key Club, and graphics classes have worked with LAFTA (Lampasas

- Association for the Arts) in their annual Family Art in the Park and the annual Art in the Park sculpture installation.
- LHS football players work with Vision Lampasas in helping coordinate the parade during the Carol of Lights celebration.
- * LHS Band and Flames participate every summer in the Spring Ho Grand Parade.
- LHS FFA students work in the summers with Spring HO in setting up and assisting with the Friday night Street dance.
- * LHS NHS students complete a minimum of 6 hours per semester of volunteer work in the community.
- LHS Key Club does many activities in the community whenever possible. They are a very active and work with the Kiwanis organization.
- * Many community organizations provide scholarships to LHS graduates.
- * Annual Awards Night to highlight the achievements of LHS Senior students.
- LHS students across many different Fine Arts disciplines perform at LAFTA annual events.
- A meeting is held at LHS in the spring and or fall, for incoming 9th grade students and their parents to inform parents and students about graduation requirements, Pre AP classes and End of Course Exams. Students and parents have the opportunity to visit with teachers and sponsors about the various classes and clubs available at LHS.
- * The LHS library works closely with the Lampasas Public Library to provide more resources for our students. The Public Library loans books to the LHS to provide our students a chance to register for free library cards and access to *Central Texas Digital Media*. The LHS library works in conjunction with the Public Library to bring in young adult authors for the students and the community. Some LHS students are members of the Public Library's Teen Advisory Group (TAG) group which meets monthly at the Public Library and works to promote literature in the community.
- SHAC meetings are held four times per year and parents and community members are invited to attend these meetings.
 - Lampasas County Young Farmers Booster organization partners with the LHS CTE department to

- support continuing adult education in Lampasas and to support LHS CTE programs.
- * Site Base Committee made up of staff and community members.
- Robotics group presented information on the LHS STEM program to the Town & Country civic group.
- LHS golf works in conjunction with the municipal golf course for weekly practices and golf tournaments.
- * LHS works very closely with the <u>Lampasas Dispatch Record</u> covering school events.
- LHS works closely with Central Texas College to make available dual-credit courses on the LHS campus.
- * LHS produces a principal spotlight video each week that informs parents of the happenings at LHS.

Parent and Community Engagement Strengths

- 1. Excellent involvement of the booster clubs and local businesses
- 2. Site-based team involvement in policy decision-making
- 3. Interaction with DARS, public health, Red Cross, CTC, Fort Hood, county extension agents, and many other outside organizations
- 4. Improved communication through technology, automated calling, and written correspondence.

Problem Statements Identifying Parent and Community Engagement Needs

Problem Statement 1: Improve parent involvement. Root Cause: Parents not always understanding the language/terms used in education so being involved can be intimidating.

Problem Statement 2: Fostering a collaborative environment between the school and parent/guardians can always be improved. **Root Cause:** Having time where there are no other events going on in the community that conflict with school events.

School Context and Organization

School Context and Organization Summary

To what degree does the district/school support the organization and how?

What does the data reflect about classes, schedules, and student/staff teams?

English/Language Arts class size was 16.7 compared to the state average of 16.7. Foreign Language class size was 22.0 compared to 18.6 state average. Mathematics was 19.8 compared to 17.9 state average. Science was 19.6 compared to 19.0 state average. Social Studies was 19.7 compared to 19.3 state average. The majority of students were on recommended scheduling which help set the class sizes for the majority of courses. We should see an increase in the number of students taking the Honors, OnRamps and AP courses with the change in graduation requirements. Availability of classes is reflective of the number of staff available throughout the day to instruct those classes due to the addition of an extra period in the day.

How is adequate time devoted to subjects in which students perform poorly?

Students struggling in different subject areas are offered tutoring and use of content mastery to aid them in gaining the understanding to be on track for successful completion of the course and assessments. We also have an academic period during the day when students are able to work on assignments and make up tests that were missed.

How do teachers have a voice in decision making and school policies?

Teachers have representatives on the Site Based Decision Making Team. There are department chairs and they can voice concerns to the administration. There is also an open door policy where teachers can bring their concerns to the administration personally if they want to. During the faculty meetings teachers have the opportunity to present concerns or suggestions about school issues. They also have the ability to share during weekly department meetings.

What role do teachers have in deciding what assessments will be used to evaluate individual

students or the program as a whole?

The district has decided to use the curriculum from C scope. The teachers have the decision on how to present the information to the students. Teachers in the same subject area usually get together and generate an assessment for the materials they are covering. In this manner they are testing all students to the same standard to see how they are progressing with the information being presented. This also will show areas that need to be readdressed or look at lesson plans for improvement.

Do school committees and decision making bodies make it easy for teachers, parents, paraprofessionals, support staff and students to be heard and, in turn, for all groups to be part of solutions to identified problems?

Meetings for the SBDM are made public for those with concerns to bring their ideas to either a member of the committee or present their ideas in person at the meeting. The committee is open to suggestions for all share holders in the success of the school and our students.

School Context and Organization Strengths

- 1. Use of RTI, AP/Honors, and OnRamps, TRS curriculum, and SBDM are organizational strengths that provide all students an opportunity to be successful
- 2. School organizations and community support provide LHS students with increased opportunities for success
- 3. Common conference periods for core subject areas

Technology

Technology Summary

Digital Learning Environment

- Lampasas High School has a 1:1 Chromebook initiative for all students.
- LHS students receive instruction in digital learning through multiple computer labs and Chromebooks.
- The LHS library computer lab is available before and after school hours, as well as during lunch periods for student use.
- The LHS library has it's own Overdrive site for digital books which is available to all students and staff. The LHS library also provides numerous digital research databases and simultaneous use of STEM e-books for students and staff use.
- The LHS library provides and manages the *Turnitin* program where students submit papers and projects to teachers electronically. Work submitted through *Turnitin* is scanned and analyzed for plagiarism.
- LHS students have school *Office 365 and Google Drive* accounts that include a Google suite of online tools that are used for collaborative learning with teachers and other students anytime/anywhere.
- * LHS teachers post lesson plans for parent/students using BlackBoard Teacher sites.
- * Some LHS teachers share curriculum resources using BlackBoard Teacher sites.
- LHS teachers receive at least 9 hours of instructional technology training each year.
- LHS teachers are supported by an instructional technology coordinator who assists with instructing students and staff in the use of new technology tools.
- * LHS staff *Continuing Professional Education* (CPE) training credits are tracked online through *Eduphoria Workshop*.
- SMARTboards provide interactive learning opportunities for LHS students.

- LHS offers technology application courses where students learn digital software packages and produce digital projects in video, animation, graphics, web pages and more.
- * The LHS Video Production class produces a weekly video program, LBTV, that airs in the cafeteria at lunch.
- * LHS students have access to a one-to-one computer lab with Adobe software products.
- Badger Tracks, the LHS newspaper is produced in Adobe InDesign and printed and distributed in coordination with our local newspaper as well as articles posted through Badger Tracks twitter account.
- * The LHS yearbook is produced via an online program in coordination with Josten's.
- * The LHS Video classes, Digital Arts and Animation, Theater, and English classes are entered as joint LHS projects in the new UIL film festival contest.
- * LHS uses *Odysseyware* for online instruction, remediation, credit acquisition, and advancement.
- * LHS remediation classes uses Myaccess to help build students writing skills.
- LHS will foster a promote student success through social media (Twitter & Instagram) with postings from classrooms and school events.
- LHS provides information to students and staff using TVs placed around campus.
- LHS keeps stake holders informed by utilizing social media, Blackboard emails/messanger, and the electronic publication of the Badger Times each week.
- * LHS uses Canvas as a learning management system.
- LHS shares weekly Badger Times news through socila media, email, posted in everyclassroom, campuse tv, campus bulitin boards and blackboard messanger.
- * LHS manages student technology use by using goguardian and gaggle.

Technology Strengths

^{1.} 1:1 Chromebook initiative

- ² Utilizing our learning management system in classes to prepare students for after graduation.
- ^{3.} Professional development for staff is in place to support technology use in classroom.
- ^{4.} Teachers are required to complete 6 hours of IT training each year.

Problem Statements Identifying Technology Needs

Problem Statement 1: There is a need for continual training of digital citizenship to staff, students, and parents. **Root Cause:** The ever changing digital landscape and being able to quickly and easily access the most current teaching resources.

Priority Problem Statements

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- HB3 CCMR goals
- Campus/District improvement plans (current and prior years)
- Covid-19 Factors and/or waivers for Assessment, Accountability, ESSA, Missed School Days, Educator Appraisals, etc.

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Effective Schools Framework data
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations
- Federal Report Card Data

Student Data: Assessments

- State and federally required assessment information
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Postsecondary college, career or military-ready graduates
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- SAT and/or ACT assessment data
- PSAT
- SSI: Think Through Math assessment data for Grades 3-8 and Algebra I (TEA approved statewide license)
- Running Records results
- Observation Survey results
- Istation Indicators of Progress (ISIP) reading assessment data for Grades PK-2

Student Data: Student Groups

Dyslexia Data

Student Data: Behavior and Other Indicators

- Completion rates and/or graduation rates data
- · Attendance data
- Discipline records
- Class size averages by grade and subject

School safety data

Employee Data

- Staff surveys and/or other feedback
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact
- TTESS data

Parent/Community Data

- Parent surveys and/or other feedback
- Community surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Communications data
- Budgets/entitlements and expenditures data
- Study of best practices

Goals

Goal 1: The Students in the Lampasas ISD will demonstrate exemplary performance in mathematics, science, social studies, and the reading and writing of the English language.

Performance Objective 1: By Spring 2022, the percentage meeting or exceeding proficiency will meet or exceed state average on the EOC tests.

Evaluation Data Sources: All students and each special population will exceed the state average on the STAAR tests, meet ARD expectations, and the Campus/District will meet AYP.

Summative Evaluation: Exceeded Objective

Strategy 1 Details		Rev	iews	
Strategy 1: LHS will use the scientifically research-based TEKS Resource System (TRS) to ensure academic success in all		Formative		Summative
core classes for all students.	Nov	Jan	Mar	June
